

School Improvement Project

Nick Ho, who would like to be a student representative of the school improvement project committee, is sharing his idea for improving the school.

Good afternoon teachers and fellow students.

I'm Nick Ho from Class 5C. I would like to point out why you should select me as a student representative for the school improvement project committee.

I've been studying at this school since I was six years old. I really care about our school. I've learned to count, read, study, and speak two other languages from this school. I've also met a lot of good friends here. I would like to be on the project committee so that I can speak up on behalf of you.

Let me share with you just one of my ideas for improving the school. I'm suggesting re-doing our playground with more equipment, such as swings and slides. To raise money for that, I plan to organise a fun fair with different clubs. We can invite and sell tickets to people in the neighbourhood to come to the fun fair. Each club can make a fun game booth and we can set the booths next to the sweet smell of popcorn and candy floss machines. Once enough money is raised, we can vote for the best equipment to be installed at the playground. With a better playground, we'll get to study hard and play hard too.

I hope you can select me as a student representative for the school improvement project committee because I have many more excellent ideas. I'm reliable and hardworking, and I also have great communication skills. I really love our school so please vote for me. Thank you!
