

# *How to Make a Better School?*

4A 15 Mak Man Kiu

Good Morning everyone.

I am Mak Man Kiu,  
Scarlett from Class 4A.

I would like to point out some of my  
suggestions for improving our school.

I have also met a lot of friends  
at school. All of us are proud  
of ourselves and our school.  
We believe that we should  
suggest some ideas which  
benefit everyone in school.  
That's why I will suggest some  
improvements here.

Why do I want our school to become  
better?

I have been studying at this school since I  
was six. I appreciate not only the current  
facilities but also the care from the  
teachers and my classmates in our  
school.

Firstly, I hope there can be a spacious playground on the rooftop of our school. There will be facilities like slides and see-saws for our schoolmates to take a break during recess.

Also, we may plant some trees and plants like cactuses and sunflowers in the garden. This will bring advantages by creating opportunities for outdoor learning. We could learn how to take care of plants that give out fresh air. Having more green around us is a great idea. Let's create a going-green lifestyle!

Secondly, I suggest building a beautiful swimming pool in the sport centre. It is because I believe that the school could add swimming as an activity in our PE lessons. I can choose to swim with my classmates in PE lessons or in the summer holiday. This suggestion can allow students to learn swimming at school and at the same time the school can hold competitions to attract more students to participate every year. It also lets us enjoy playing in the water in summer. I can't wait to swim with my friends!

The last suggestion is to open a bakery shop in school.

First of all people can buy cakes or bread at any time during recess or breakfast time.

On the other hand when the class would like to hold a birthday party or a Christmas party at school, or if you need a cake to celebrate any celebration, you can order a cake from the cake shop.

Besides, we can arrange cookery classes where we learn to make cakes, cookies and pizza after school or during holidays. Students can participate in these activities in order to release stress after school.

In conclusion, I hope that you will love my suggestions and consider selecting me as a student representative for the school improvement project committee.

I am a very reliable, hard-working and trustworthy person. In addition, I am patient and outgoing. I can communicate with our teachers and schoolmates on how to do my best for the project. I hope you will vote for me. Thank you!
