# *Behind the Scenes*

## **Story behind Yes Day**

In a small village on a rolling hill, people celebrated Yes Day on the 10th of August, a special day for the head village's birthday. Families gathered, enjoying delicious treats from food stalls and engaging in games and activities. The festival featured a Wishing Tree where families wrote their

desires. Surprises and adventures awaited, as parents said "yes" to their children's requests. The tradition continued, spreading joy and reminding everyone of the power of embracing life's adventures. This year, Hong Kong will have its first Yes Day celebration.
