6B28 WONG HAU TAN

# Nature Festival

This festival is about animals in the natural environment. Since a lot of animal habitats are threatened in Hong Kong, this festival is held to raise people's awareness about conservation. As we live as a part of nature, everyone should join this festival together. It is held from 20th to 25th of April which intersects with Earth Day on April 22nd. This festival is also a time to remind people about their role in nature and how we can better serve our planet. This festival is celebrated in the Hong Kong Wetland Park.

Entrance fee:  
Adults: \$30  
Children (3-17) and elderly  
(65 above): \$15

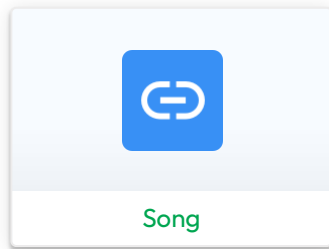

\*Discounts are offered to group admissions, starting at 3 people. For every 3 purchases, you can redeem a free adult ticket.

**Come see this beautiful scenery for yourself!**

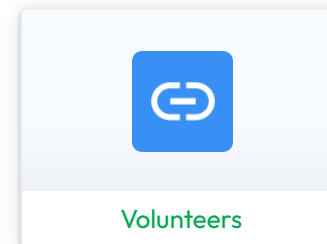

## OPENING CEREMONY

The theme of the opening ceremony is '*Feeling Nature With Five Senses*'. There will be five people, including an adolescent, the blind, a child, the elderly and those who experience disabilities in their limbs. They will share how to use five senses to feel and appreciate nature. They will share their experiences in feeling nature through sight, hearing, taste, touch and smell respectively. At last, visitors will listen to the song—'Serenade', which is a song containing harmonious and orchestral nature sounds in the background. You listen to the song from the link below or click the button.

## CLOSING CEREMONY

There will be *eco-tour guides* sharing what their work includes and what difficulties they face. They will also encourage people to become great volunteers of both the park and of other natural organisations. Click the link below for more information.

## What can we EXPECT?

We can see numerous animals and plants, even RARE ONES! I am sure that you will keep taking photos of them all the time!

## What's ON THE TABLE?

We will be feasting healthy and organic food, for instance, salad. While eating, you can appreciate the GORGEOUS view of the wetland. What a GREAT TIME it will be!

# Activities

## Videos Fun

We have many videos on display. You can share your thoughts about them on our website or talk to one of our volunteers at the screening. Here is one of the videos!

## Sharing Fun

Photographs lovers will enjoy this! After a day of taking breath-taking photos, I am sure you will want to share them! You can have the photos uploaded onto our official website or displayed at the event. We will also organise a voting competition, and the most popular photos (limited to 10 winners) will receive

SPECIAL SOUVENIRS

## Healthy Fun

A nutritionist will be at the event throughout and share what is the best dish for us. Also, there will be FREE salads  to try!

Foodies must come by!

# Activities

## Knowledge Fun

There will be a competition about some nature facts. Everyone can apply for the competition in advance and spots are on a first-come-first-serve basis. We will choose three teams per session (there will be 2 sessions held each day), and each team will have four people. The winners can each take home A BEAUTIFUL POSTCARD.

## Books Fun

If you would like to read books and learn more about nature, come to the reading corner. There will be plenty of books for everyone to enjoy. The books include ones about wetland environment and animals' habitats. The corner will be opened everyday, from 10 am to 6 pm.

## Poetry Fun

You may heard of poems before, and now it's the time to write one about nature! We will have a booth of creativity, where creative writers will assist people in crafting their own nature poems. If you do not know how to write a poem, do not worry. Here is a website for you!

# Reasons for COMING

It will be a FANTASTIC festival as you can learn ways of protecting nature. You can also meet ADORABLE animals there. Families and visitors who have been here all left WONDERFUL reviews! Our animals and plants are waiting for you!

If you are still not clear about what threats animals are facing, you can visit the website below.

What are some of the biggest threats to wildlife?

It will be GREAT if you join us for this festival!

Together, we can protect our Earth!
