

TIM THE SUPERMAN

By Brighton Lee

Tim was just a normal boy who lived in a big city. He went to school like every normal kid every day.

Tim imagined that he was a super hero. He was responsible for protecting the citizens in his city.

One day, Tim played football with his friends in the park. When they scored, they jumped up and down with excitement. Tim exclaimed excitedly, "Good job, everyone!"

Suddenly, a sword appeared and descended from the sky. Tim was curious about it and therefore, he took it home and studied it all night long.

However, Tim hurt himself by the blade of the sword. Tim was shocked and he passed out when he saw his blood.

The next day, Tim found out he had super powers. He realised that it was not an ordinary sword because of its magical power. When Tim found out that he could fly like an eagle, his mouth dropped and his eyes popped out of his head. At the same time, he was thrilled that he could use his superpower to help people. A smile spread across his face.

Since then, Tim would fly and helped people in need. Everyone was grateful for Tim's help.

As Tim was busy helping different citizens, a villain called Evil Tom was hurting the people in the city. Tim was furious. Tim folded his arms tightly and looked at Evil Tom with glaring eyes.

Tim and Evil Tom fought and fought. All citizens were worried about Tim since Tim was tired. "You can do it!" said the citizen nervously.

Fortunately, Evil Tom became weak after he spent all his energy hurting people.

Finally, Evil Tom was defeated. Tim and people were thrilled and they had giant smiles on their faces. "Hurray!" exclaimed the citizens as they burst into tears out of joy.

*Tim rescued this city and taught Evil Tom a lesson.
The people wanted to thank Tim for saving this city
so they held a big party for Tim.*

Tim learnt that helping people was important. He should offer help to more people because of the superpowers he had. He hoped that the people would not get hurt from the villains anymore.

THE end
